

Mistakes, Mitigations, and Making Amends on the Land Land Based Learning Webinar Student Worksheet

Before the Webinar:

What do I already know about land use in Alberta?

What are the definition of MITIGATION and AMENDS?

Mistakes, Mitigations, and Making Amends on the Land Land Based Learning Webinar Student Worksheet

During the Webinar:

What questions do I want to ask the Experts?

Mistakes, Mitigations, and Making Amends on the Land

Land Based Learning Webinar Student Worksheet

After the Webinar:

1. How has the land in your local area changed in the past 100 years?
2. Is the land still changing?
3. What land uses are contributing to that change?

Mistakes, Mitigations, and Making Amends on the Land

4. Locate your city/town on the map below. What watershed do you live within?

Mistakes, Mitigations, and Making Amends on the Land Land Based Learning Webinar Student Worksheet

5. Explain one example of mitigation that has taken place in the province.

6. How can Indigenous Knowledge lead conservation efforts in Alberta?

Mistakes, Mitigations, and Making Amends on the Land

Land Based Learning Webinar Student Worksheet

Use the space below to personalize what you've learned about land use, mistakes that have been made, mitigations that have been done and how Indigenous Nations can lead the way forward for conservation.

- Draw a picture (creative or scientific)
- Write a short story
- Create a work of art
- Make up a haiku or song about Alberta's land.
- or, come up with your own idea!

Take Action:

Challenge Option #1

Make an infographic for your class, home or community about Alberta landscapes, what threatens them and what more can be done to protect them. Post it in your community or on your social media platforms!

Challenge Option #2

Take Action! Get a group of students together and create a list of actions to help protect or improve Alberta's Natural Spaces. Create a pledge for individuals or classes of personal steps to reduce our impact on Alberta's ecosystems.
